

Bitabiz - Microsoft Office365

Improve productivity in your company by integrating Bitabiz with your Microsoft Office365.

Microsoft Excel & PowerBI

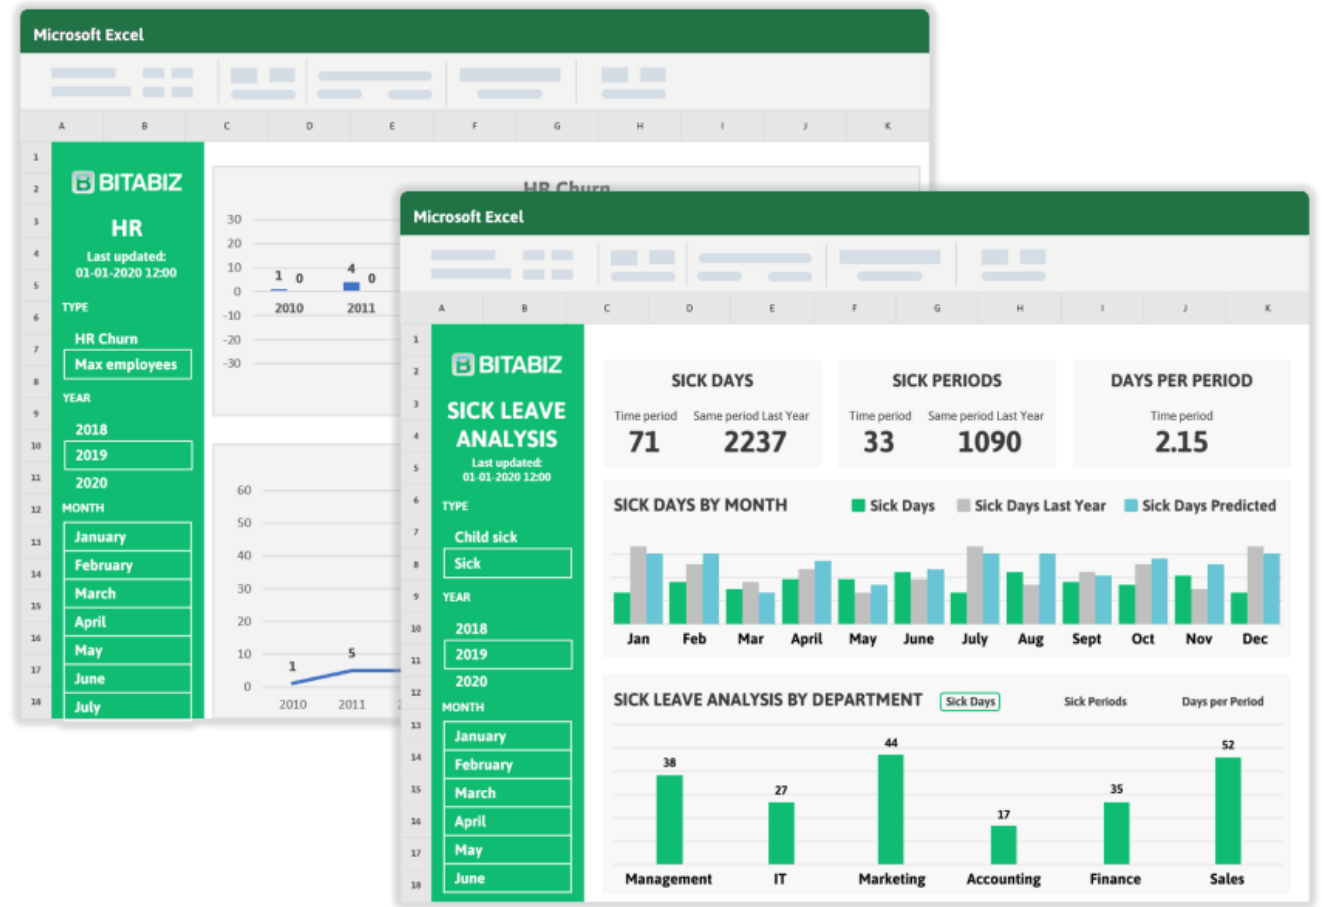

Customized statistics

By integrating Bitabiz to Microsoft Office365, companies get updated statistics directly to Microsoft Excel and PowerBI. The integration provides flexibility and the opportunity to get reports that are customized for specific needs.

Main benefits:

FLEXIBILITY

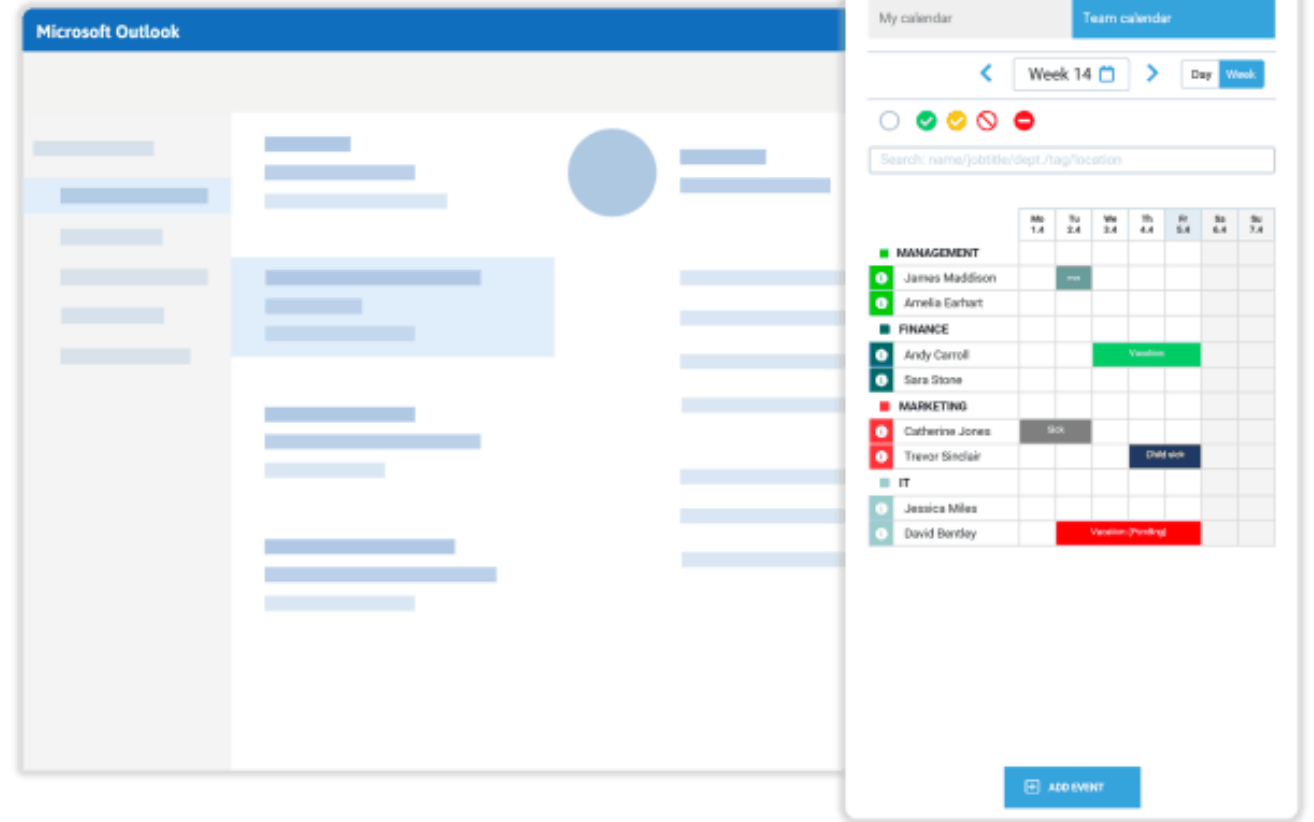

VISUALIZATION

Microsoft Outlook

Time registrations from Outlook

Bitabiz can be installed for all of your employees Outlook. This gives employees easy and convenient register their time. The Outlook integration is an effective way to roll out Bitabiz to your entire organization through the Office365 admin center.

Main benefits:

ON-BOARDING IS AUTOMATED

EASY ACCESS

Microsoft Exchange

Automated sharing of presence status

On average, Bitabiz updates 50-70 Out of Office days per year/per employee to Outlook. Productivity is improved when availability status is always shared and updated to the shared communication platform. Hence, status is not kept in separate systems that does not talk together.

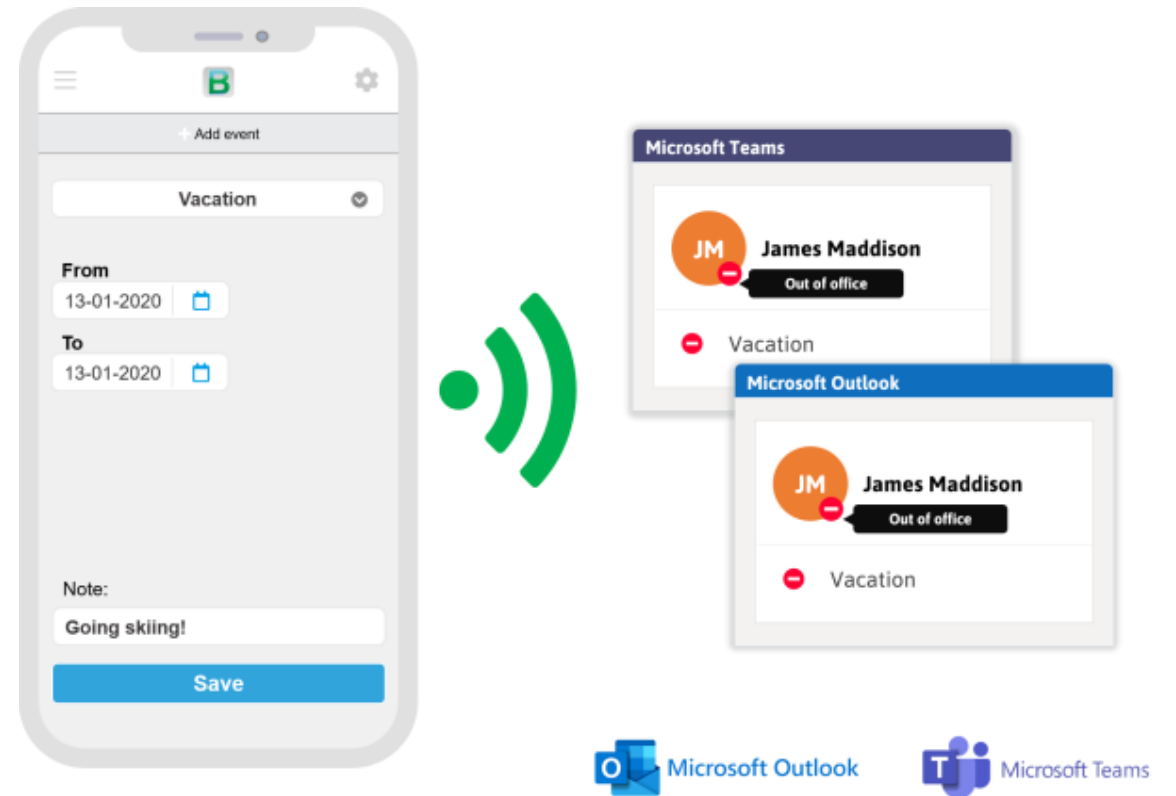

*Danish industry
